EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Paul B. Heynssens on July 17, 2003.

Claim 13:

Insert the subject matter of claim 11 before the word "wherein" in claim 13 and delete the words "The microstrip coupler of claim 11" in claim 13.

Claim 13. (amended) A microstrip coupler, comprising: an input microstrip conductor configured to carry an input signal; a central microstrip conductor proximate the input microstrip conductor and separated from the input microstrip conductor by a first gap; an output microstrip conductor proximate the central microstrip conductor and separated from the central microstrip conductor by a second gap; a coupling microstrip conductor for coupling at least a portion of the input signal; wherein the coupling microstrip conductor comprises: a first coupled portion disposed along a first side of the central microstrip conductor; a second coupled portion disposed along a second side of the central microstrip conductor; a first connecting portion extending through the first gap and beneath the first controlled capacitance bridge for connecting a first [and] end of the first coupled portion and a first end of the second coupled portion; and a second connecting

portion extending through the second gap and beneath the second controlled capacitance bridge for connecting a second end of the first coupled portion and a second end of the second coupled portion.

Allowable Subject Matter

Claims 1 – 10, 12 and 13 are allowed.

The prior art of Bales shows first and second coupling conductor (6,7) but does not show a first or central microstrip conductor with the second or third microstrip conductors placed on either side of the first or central microstrip conductor (claims 1, 6 and 13); the first and second controlled capacitances bridges comprising conducting layers and a dielectric situated between the conducting layers and the gaps (claim 12).
